## Step 2

In this example, we're appending content to test.html.

Type the following command in PowerShell ISE Console

```
Add-Content D:\temp\test\test.txt 'World!'
```

## Step 3

In this example, we're reading content of test.html.

```
Get-Content D:\temp\test\test.txt
```

## Output

You can see following output in PowerShell console.

Hello

World!
