Powershell - Check File Existence

Cmdlet

Test-Path cmdlet is used to check existence of a file.

Example 1

In this example, we're having a file test.txt in D:\temp\test directory

Type the following command in PowerShell ISE Console

```
Test-Path D:\temp\test\test.txt
```

Explore our **latest online courses** and learn new skills at your own pace. Enroll and become a certified expert to boost your career.

Output

You can see following output in PowerShell console.

```
Test-Path D:\temp\test\test.txt
True
```

Example 2

In this example, we're not having a file named test2.txt in D:\temp\test directory

Type the following command in PowerShell ISE Console

```
Test-Path D:\temp\test\test2.txt
```

Output

You can see following output in PowerShell console.

Test-Path D:\temp\test\test2.txt
False
